Winter Haven, FL 33880

Gentlemen:

As owner of the property described on the attached exhibit, I would like to request that your agency conduct a radiological survey of this property in order to determine the existing levels of radiation associated with the previous phosphate mining activities conducted on this property. It is my understanding that your agency will provide a one-week testing program to provide this information. I would appreciate it if you could advise me as to when this testing could be conducted.

By copy of this letter you are authorized access to this property for purposes of conducting your testing and measurement procedures. If there are any further requirements or information needed in order for you to conduct these tests, please contact me as soon as possible.

Very truly yours,

E. Edward Holloway, Jr.
Trustee
